People v. Maynard, 80 Misc. 2d 279 - NY:
Supreme Court, New York 1974

1974

Sperduto

Lewis M. Steel '63

1708 - SPERDUTO - for people - cross

Q: Now, an aspirin container such as this is a good surface to pick up prints, is it not?

A: I would say yes.

Q: Flat, metal surface?

A: Yes, sir.

Q: And when people open it, they actually press their fingers on it often, don't they?

A: Yes.

...

Q: How long would you say a print could remain on this aspirin container?

A: Under ideal conditions, it could last for months.

1711 0 SPERDUTO - for people - cross

Q: Now, the item, the flashlight; I take it when you examined it, it was in the condition it's in now, without a bulb in it?

A: Yes, it was.

...

Q: Now, the flashlight is also made of metal; is it not?

A: Yes, sir, it is.

Q: And also is a good surface?

A: Yes, sir.

Q: To hold fingerprints, is it not?

A: Yes, it is.

Q: And under ideal conditions how long would prints remain on that flashlight?

A: I'd say for months also like the aspirin box.

1713 - SPERDUTO - for people - cross

Q: Certain conditions, you could find identifiable latent prints on this bag?

A: I'd say--I would say, yes, you could, under certain conditions, yes.

Q: And could you find them on the handle?

A: You could find them on the handle, yes, sir.

1716 - SPERDUTO - for people - ~~redxxxx~~ cross

Q: Now, an aspirin container inside the traveling bag, would that be a good condition to find a print if it had been put here recently?

A: I would say yes.
