Messrs Lewis + Son

Surely your letter was right-on!
and of course I accept my stay at
Sing Sing as further indication that our
ultimate goal will be accomplished on
Sept 1, 1971 and my calendar says 11, 1991

I am content in endless hours in open
space utilizing my limbs in basketball
& softball and when the weather doesn't permit
me, I spend my time at perfecting my bridge
- game or chess with friends at the library
where I can listen to music of my choice
in complete quietude, so in short I'm getting
it together moment to moment and as far
as subjective thoughts there is nothing to say
I must do when the time comes yes!

Something positive.. making a treat with
cigarettes..... did you receive my last letter?

Stay loose for surely this will come
to pass.

In Faith & Trust
Muel,

P.S.

the Post has been smoking editorially of late
P.S. II..

Give my regards to all, peace
