Dear Mr. Steel:

Enclosed are a few materials with regard to polygraph testimony in response to your inquiry concerning United States v. Philip Dioguardi, 72 Cr. 1102, the case in which Judge Weinstein indicated on the record that he would admit polygraph testimony.

No opinion was written, and in fact the testimony was never presented to the jury because the government dismissed the indictment when presented with two consistent polygraph examinations.

I've sent along some excerpts from the transcript, and two recent cases which were reported in the Criminal Law Reporter. I hope that these will be of some help to you.

Yours truly,

Mark C. Morril
Law Clerk to Judge Weinstein
